Subject: Request for issuance of "Data Communications and Networking By Behrouz A Forouzan" book from the Book Bank

Respected Sir/Madam,

I am Chirag Singhal, a student of the CSE Department, pursuing B.Tech in the 6th semester. I am writing this letter to request the issuance of the book "Data Communications and Networking By Behrouz A Forouzan" from the Book Bank.

This book is prescribed as the main textbook for the course "Computer Networks" (CN), which I am currently enrolled in. However, I have been unable to obtain a copy of this book from the Book Bank, as it is not available.

Consequently, I have to issue it from the library on a 2-week basis. However, there are additional consequences of this arrangement that concern me. Firstly, if I fail to return the book on time, I may incur fines that I cannot afford. Moreover, the library does not issue any receipt or proof of return when I return the books physically, which makes it hard for me to keep track of my borrowing history and avoid any disputes.

These issues have caused me a lot of inconvenience and stress, as I have to constantly worry about returning the books on time and avoiding fines. They have also affected my academic performance, as I cannot study the book properly or complete my assignments on time. I have discussed this problem with Ramveer Sir, who is the faculty in charge of CN course, and he suggested that I bring this matter to your notice and request for a special arrangement.

I understand that the Book Bank has limited resources and that it may not be possible to issue me the book from there. However, I request you to kindly consider my situation and provide me with some alternative solution. For example, you could allow me to borrow the book from the library for a longer period of time, and issue me a receipt or proof of return when I return the books physically, or arrange for more copies of the book to be added to the Book Bank inventory.

I would be very grateful if you could look into this matter and help me out. I hope you will understand my predicament and respond positively to my request. Thank you for your time and attention.

Yours sincerely,

Chirag Singhal
